TAB- ABOUT

From us pending- pictures of fabric

TAB- FOR FABRIC CATEGORIES:

Explore the *materials* we source

For a professional sourcing profile, I recommend this hierarchy:

> **MAIN CLASS → FABRIC FAMILY → SUB-CATEGORY → MATERIAL/COMPOSITION → FINISH/PERFORMANCE**

Recommended Fabric Sourcing Classification

1. WOVEN FABRICS

This should be one of your two biggest categories.

A. Basic Wovens

- Poplin
- Plain Weave
- Broadcloth
- Cambric
- Lawn
- Voile
- Muslin
- Calico

B. Twill Wovens

- Twill
- Gabardine
- Drill
- Chino
- Herringbone
- Broken Twill

C. Denim

- Rigid Denim
- Stretch Denim

- Comfort Stretch
- Raw Denim
- Ecru Denim
- Black Denim
- Colored Denim
- Recycled Denim

D. Satin / Smooth Wovens

- Satin
- Sateen
- Charmeuse
- Duchesse Satin

E. Texture / Fancy Wovens

- Dobby
- Jacquard
- Seersucker
- Slub
- Crepe
- Ottoman
- Corduroy
- Ribbed Woven

F. Lightweight / Fashion Wovens

- Chiffon
- Georgette
- Organza
- Crepe
- Taffeta

G. Heavy / Utility Wovens

- Canvas
- Duck
- Oxford
- Ripstop
- Workwear Fabric

---

2. KNITTED FABRICS

Your second major category.

A. Single Jersey

- Cotton Jersey
- Slub Jersey
- Compact Jersey
- Stretch Jersey
- Melange Jersey

B. Double Knits

- Interlock
- Ponte
- Double Jersey
- Scuba

C. Rib Knits

- 1×1 Rib
- 2×2 Rib
- 3×3 Rib
- Fine Rib
- Heavy Rib

D. Piqué

- Basic Piqué
- Honeycomb Piqué
- Stretch Piqué

E. Fleece

- 2-End Fleece
- 3-End Fleece
- Brushed Fleece
- Unbrushed Fleece
- French Terry

F. Terry

- French Terry
- Loopback Terry
- Towelling

- Terry Jacquard

G. Mesh / Performance Knits

- Mesh
- Birdseye
- Spacer
- Power Mesh
- Sports Mesh

H. Fashion Knits

- Jacquard Knit
- Pointelle
- Waffle
- Ottoman Knit
- Bouclé Knit

---

3. LINEN & BAST FIBRE FABRICS

I would keep this as a **material-focused category**, even though many of these are woven.

Sub-categories

- 100% Linen
- Linen/Cotton
- Linen/Viscose
- Linen/Rayon
- Linen/Polyester
- Hemp
- Hemp/Cotton
- Ramie
- Ramie/Cotton
- Flax Blends

Then classify by construction underneath:

Linen → Plain Weave
Linen → Twill
Linen → Slub
Linen → Jacquard

---

4. COTTON FABRICS

Again, Cotton can technically sit under Woven or Knit, but it deserves its own **commercial category** because of its importance to buyers.

Cotton Woven

- Cotton Poplin
- Cotton Twill
- Cotton Voile
- Cotton Lawn
- Cotton Oxford
- Cotton Canvas
- Cotton Sateen
- Cotton Corduroy

Cotton Knit

- Cotton Jersey
- Cotton Interlock
- Cotton Rib
- Cotton Piqué
- Cotton French Terry
- Cotton Fleece

Premium / Special Cotton

- Combed Cotton
- Compact Cotton
- Mercerized Cotton
- Slub Cotton
- Pima Cotton
- Supima Cotton
- Organic Cotton
- Egyptian Cotton

---

5. SYNTHETIC & MAN-MADE FABRICS

This is an important category for sourcing from China.

Polyester

- Polyester Woven
- Polyester Knit
- Recycled Polyester
- Micro Polyester
- Polyester Crepe
- Polyester Satin
- Polyester Twill
- Polyester Chiffon

Nylon / Polyamide

- Nylon Woven
- Nylon Knit
- Taslan
- Ripstop
- Nylon Spandex
- Recycled Nylon

Acrylic

- Acrylic Knit
- Acrylic/Wool
- Acrylic/Cotton

Polypropylene

- Performance Knits
- Thermal Fabrics
- Sportswear Fabrics

---

6. CELLULOSIC / REGENERATED FABRICS

This is increasingly important for fashion brands.

Viscose

- Viscose Woven
- Viscose Twill
- Viscose Satin
- Viscose Crepe
- Viscose Jersey

Modal

- Modal Jersey
- Modal Rib
- Modal Stretch

Lyocell / TENCEL™

- Lyocell Woven
- Lyocell Twill
- Lyocell Denim
- Lyocell Jersey

Other

- Rayon
- Cupro
- Bamboo Viscose
- Acetate

---

7. This we are not doing yet, but looking forward to- WOOL & ANIMAL FIBRE FABRICS

Depending on your customer base, this can be a separate category.

Wool

- Wool Suiting
- Wool Twill
- Wool Melton
- Wool Flannel
- Wool Crepe

- Wool Jacquard

Wool Blends

- Wool/Polyester
- Wool/Viscose
- Wool/Nylon
- Wool/Cashmere

Other Animal Fibres

- Cashmere
- Alpaca
- Mohair
- Silk
- Silk Blends

This is where we include certifications with actual clear logos-SUSTAINABLE / RESPONSIBLE FABRICS

I would **not** treat this as a normal construction category. It's better as a **cross-category filter/tag**.

For example:

Woven → Poplin → Organic Cotton → GOTS

or

Knit → Jersey → Recycled Polyester → GRS

Sustainable material sub-categories

- Organic Cotton
- Recycled Cotton
- Recycled Polyester
- Recycled Nylon
- Hemp

- Organic Linen
- TENCEL™ / Lyocell
- Modal
- Bamboo Viscose
- Regenerated Cellulosics

Certifications

- GOTS
- GRS
- RCS
- OCS
- OEKO-TEX®
- FSC
- BCI / Better Cotton
- Bluesign®
- Teflon

This we can iclude as “we also do-TECHNICAL / FUNCTIONAL FABRICS

This should definitely be a separate major class if you want to present yourself as a **full-service sourcing company**.

Performance

- Moisture Wicking
- Quick Dry
- Breathable
- Stretch
- 4-Way Stretch
- Anti-Odor
- Antibacterial
- UV Protection

Protection

- Waterproof
- Water Repellent
- Windproof

- Flame Resistant
- Anti-Static
- Abrasion Resistant
- Cut Resistant

Outdoor

- Softshell
- Hardshell
- Membrane Fabric
- Bonded Fabric
- Laminated Fabric
- Insulated Fabric

Sportswear

- Sports Mesh
- Performance Jersey
- Compression Fabric
- Spacer
- Interlock
- Technical Piqué

---

10. This can be in one line-SPECIALTY / CUSTOM-DEVELOPED FABRICS

This is where you can showcase your **product development capability**, rather than just being a fabric trader.

Custom Development

- Custom GSM
- Custom Composition
- Custom Weave
- Custom Knit
- Custom Stretch
- Custom Hand Feel
- Custom Colour
- Custom Finish

Surface / Appearance

- Printed
- Digital Printed
- Pigment Printed
- Foil Printed
- Embossed
- Coated
- Brushed
- Peach Finish
- Sueded
- Garment Washed

Fancy Fabrics

- Jacquard
- Embroidery Base
- Metallic
- Sequin
- Lurex
- Bouclé
- Chenille
- Burnout

⭐ But for your actual company profile, I would simplify it

You **don't want the website/profile to look like a textile textbook** with 10–15 categories. Buyers should be able to understand your capabilities immediately.

I would make your main navigation:

FABRIC SOURCING

01 — WOVEN

Cotton | Linen | Denim | Polyester | Viscose | Nylon | Wool | Blends | Fancy Wovens

02 — KNIT

Jersey | Rib | Interlock | Piqué | Fleece | French Terry | Mesh | Jacquard | Performance

03 — DENIM

Rigid | Stretch | Recycled | Cotton | Tencel™ | Colored | Raw | Washed

04 — NATURAL FIBRES

Cotton | Linen | Hemp | Wool | Silk | Ramie

05 — MAN-MADE & BLENDED

Polyester | Nylon | Viscose | Modal | Lyocell | Acrylic | Blends

06 — SUSTAINABLE

Organic | Recycled | Regenerated | Low-impact | Certified

07 — TECHNICAL & PERFORMANCE

Waterproof | Breathable | Wicking | Stretch | UV | Antibacterial | FR | Outdoor

08 — CUSTOM DEVELOPMENT

Custom Composition | Custom GSM | Custom Construction | Custom Finish | Custom Colour

---

The most important thing: use TAGS, not more categories

For a sourcing company, a fabric can have **multiple characteristics**.

For example:

Cotton Stretch Denim
Main Class: **Woven**
Family: **Denim**
Fibre: **Cotton/Elastane**
Weight: **10.5 oz**
Performance: **Stretch**
Sustainability: **Recycled Cotton**
Finish: **Garment Wash**

Another:

TENCEL™ French Terry
Main Class: **Knit**
Family: **French Terry**
Fibre: **Lyocell**
Performance: **Soft / Moisture Management**
Sustainability: **Regenerated Cellulosic**

This structure is much more powerful than putting the same fabric into five different categories.

I would therefore build your database like this:

LEVEL 1 — CONSTRUCTION

- Woven
- Knit
- Nonwoven
- Technical/Specialty

LEVEL 2 — FABRIC FAMILY

- Denim
- Jersey
- Twill
- Poplin
- Rib
- Fleece
- Terry
- Satin
- Jacquard
- Canvas
- etc.

LEVEL 3 — FIBRE

- Cotton
- Linen
- Hemp
- Polyester
- Nylon
- Viscose
- Modal
- Lyocell
- Wool
- Silk
- Blends

LEVEL 4 — PERFORMANCE / FUNCTION

- Stretch
- Waterproof
- Breathable
- Wicking
- UV
- Anti-bacterial
- Flame resistant
- etc.

LEVEL 5 — FINISH

- Brushed
- Peach
- Sueded
- Mercerized
- Washed
- Coated
- Laminated
- Printed
- etc.

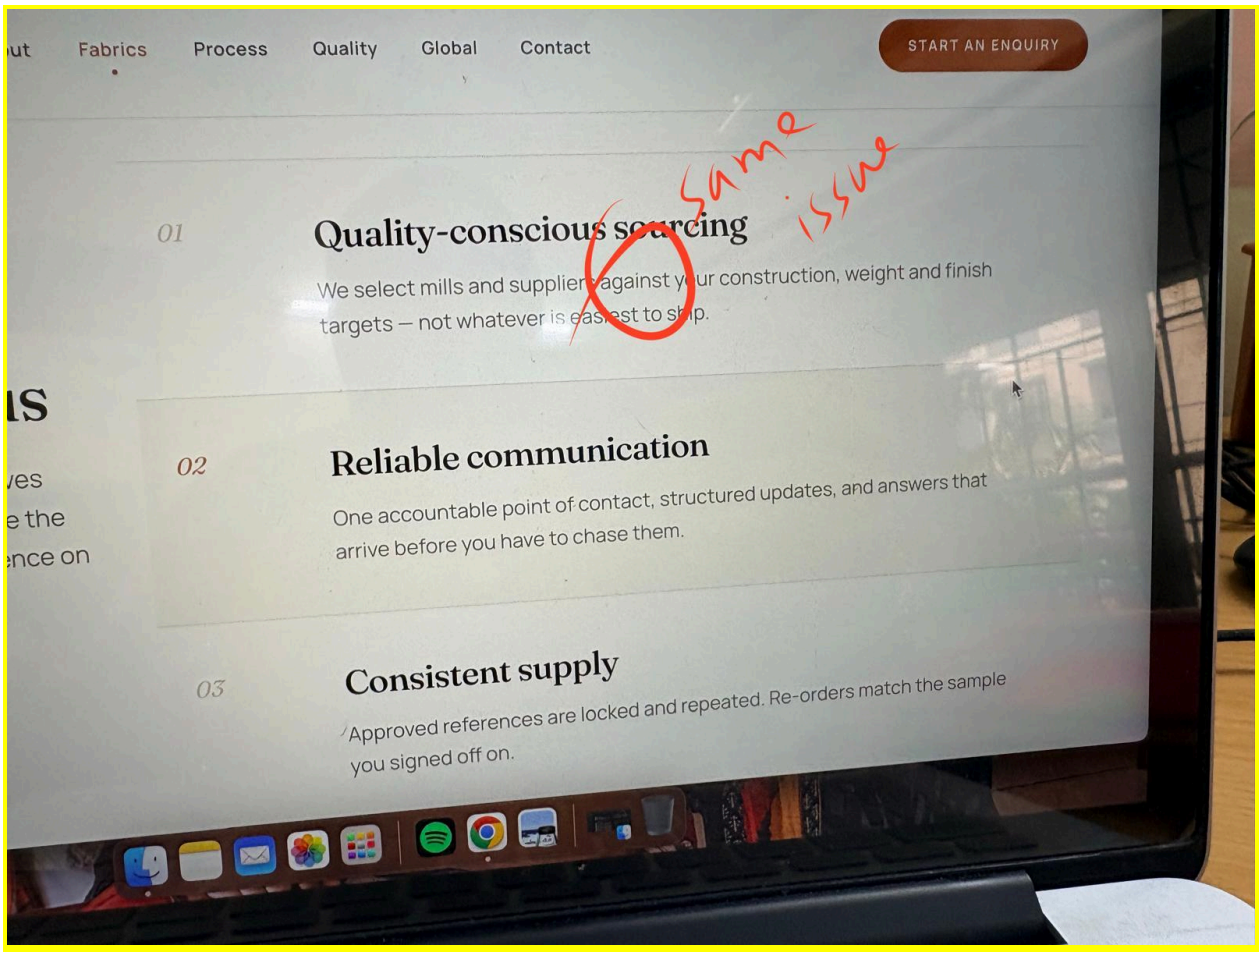

LEVEL 6 — CERTIFICATION

- GOTS
- GRS
- RCS
- OCS
- OEKO-TEX
- FSC
- etc.

For fabric showcase-

A closer look at the *cloth*.

From us-We will share real pictures and we want to edit this for future purpose too.

01
Quality-conscious sourcing
We select mills and suppliers against your construction, weight and finish targets — not whatever is easiest to ship.
IS
ves
e the
nce on
02
Reliable communication
One accountable point of contact, structured updates, and answers that arrive before you have to chase them.
03
Consistent supply
Approved references are locked and repeated. Re-orders match the sample you signed off on.

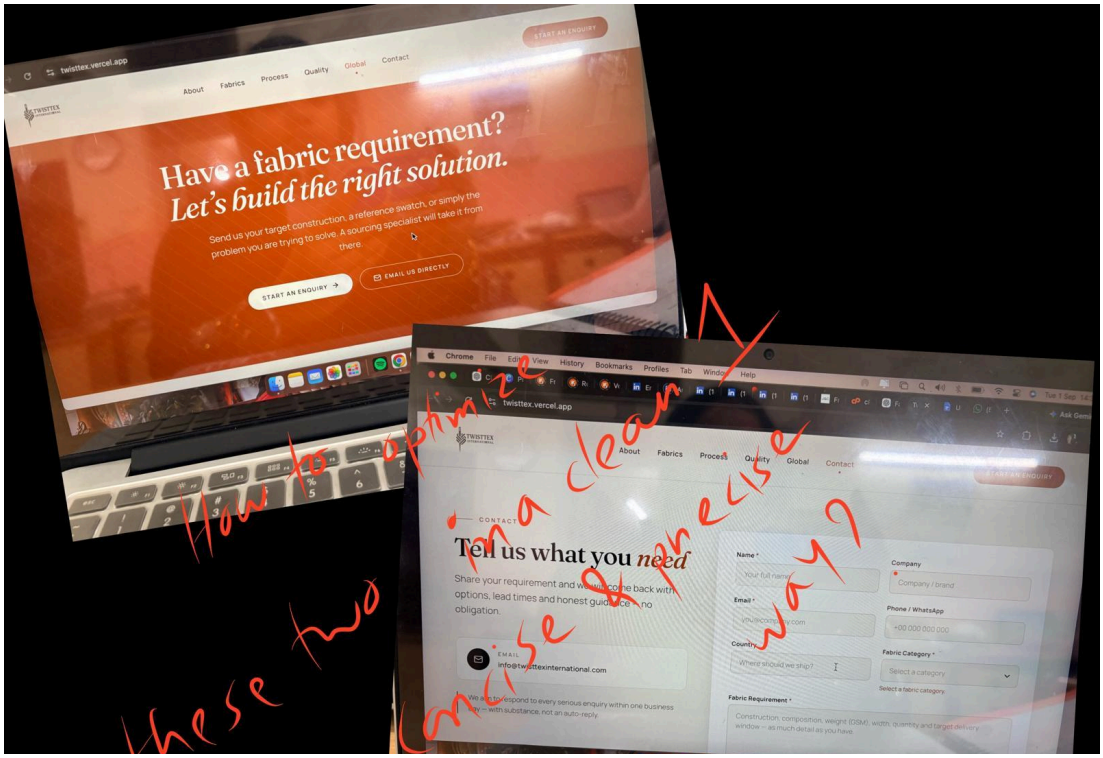

REQUIREMENT TO DELIVER : WE DONT NEED THIS AS A WHOLE PAGE, RATHER CAN BE OUTLINES IN 1 LINE/ CAN BE SKIPPED COPLETELY.

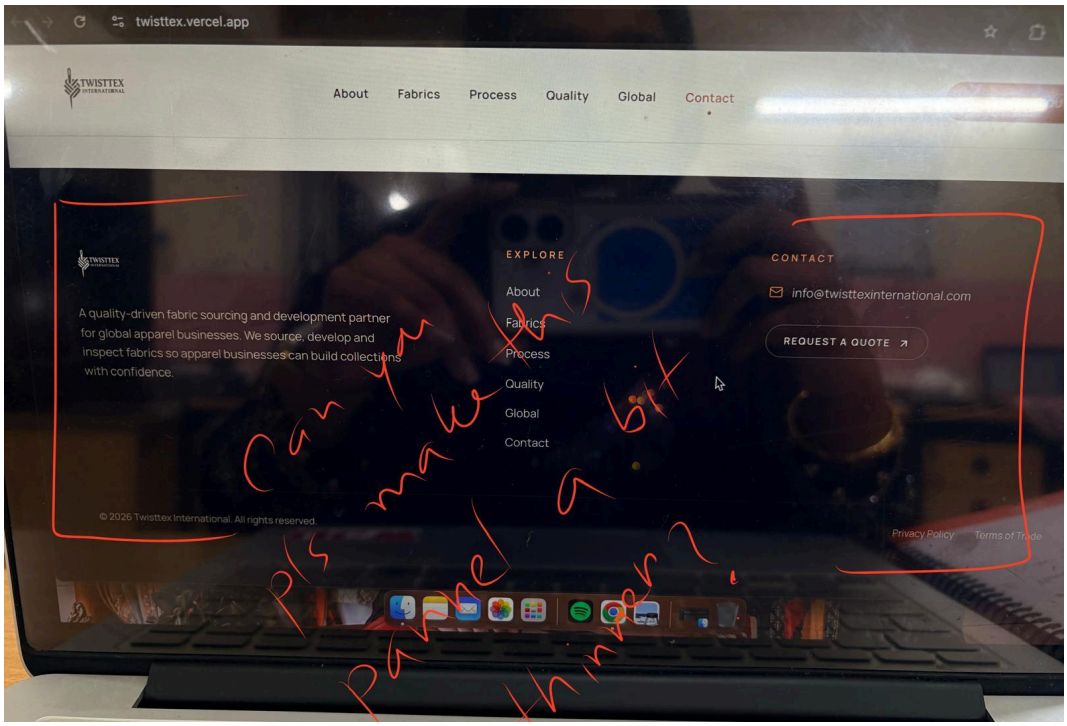

A process built for *certainty*

From us- WE WILL SHaRE REAL MILL GREIGE IMAGE of rolls .

Our Main customer/BUYER OVS(Italy), Full-Beauty Brand-REDCATS(USA), M & S(LONDON), KIK, LINDEX, La-Redoute(France), ELLOS, EMPAIR STORE, A.M
London, JD Williams(LONDON)
We source fabric from- (provices of china)
WE WILL SHARE DETAILS OF OUR LOGISTICS PARTNER IN HK.- very limited info-

Need to include about payment terms & methods
-90 days from the date of BL/ 120 DAYS from the date of BL.
-One thing I'd strongly recommend for business: **separate "Payment Method" from "Payment Terms."** T/T, L/C and D/P are payment methods/instruments, while **30/70, Net 30, Net 60, advance, balance before shipment** are payment terms. This distinction will make your sourcing documentation much cleaner.
